

# *Understanding the EPA's NPDES - SWPPP Requirement*

Had a class before and still don't understand it?  
This is TRAINING FOR THE REAL WORLD

## **THE "HOW TO" OF STORM WATER POLLUTION PREVENTION PLANS**

*Training for:*

*HOME BUILDERS, DEVELOPERS, FIELD PROJECT MANAGERS & SUPERINTENDENTS*

Most fines are levied because the SWPPP was not installed and maintained as prescribed.

---

Participants, who complete our training, leave understanding the function and purpose of prescribed BMPs (Best Management Practices); how and when to inspect; how and what to record; and the lines of responsibility from project start to project completion. ECSS provides a 4 hour concentrated class focused on the practical application of Storm Water Pollution Prevention Plans with a brief overview of the NPDES SWPPP requirements. We also provide an 8 hour course for "qualified" person training.

To Inquire about scheduled training, costs (including special large group rates), or to schedule a training for your company, call our office at: 505 466-6464 or fax your inquiry to: 505 982-9288. All courses include an easy-to-use reference manual, documentation of training to the employer, and a certificate of training for the participant.
